Cozy 1950's Ranch!

Cozy 1950's ranch has lots of character and lots of upgrades! This most attractive home sits on a 1/3 acre beautifully landscaped lot.

The 1635 square feet consists of entrance hall, spacious living room with fireplace, dining room, kitchen, hallway, 3 bedrooms, 2 full baths, mud room and laundry room. There are hardwood floors throughout with the exception of the kitchen (pine floor) and ceramic tiled baths. The woodwork is wide and handsome.

Kitchen was redone in 2007 to include a breakfast bar, wine rack, lots of upper cabinets, lower drawers, and counter space. New hardy plank siding, 30 year roof, and replacement windows were done in 2008. Master bath en suite was completed in 2012 and has a spacious shower with bench seat. On demand hot water heater is another nice feature.
